## Chapter 2

# Installation of the **ExamplesForHomalg** Package

To install this package just extract the package's archive file to the **GAP** **pkg** directory.

By default the **ExamplesForHomalg** package is not automatically loaded by **GAP** when it is installed. You must load the package with

```
LoadPackage("ExamplesForHomalg");
```

before its functions become available.

Please, send us an e-mail if you have any questions, remarks, suggestions, etc. concerning this package. Also, I would be pleased to hear about applications of this package.

Mohamed Barakat and Simon Görtzen.
