Chapter 2

Installation of the ExamplesForHomalg Package

To install this package just extract the package's archive file to the GAP pkg directory.

By default the ExamplesForHomalg package is not automatically loaded by GAP when it is installed. You must load the package with

```
LoadPackage("ExamplesForHomalg");
```

before its functions become available.

Please, send us an e-mail if you have any questions, remarks, suggestions, etc. concerning this package. Also, I would be pleased to hear about applications of this package.

Mohamed Barakat and Simon Görtzen.
